# ADVERTISELY TRADESMAN/BLUE COLLAR IUL SCRIPT

**Key:** 🔴 Agent note · 🟠 Be assumptive · 🟡 **Golden statement**

---

**1. Intro**

> Hey (client) can you hear me?
>
> I'm calling you in regards to that info you were wanting on the **Blue Collar IUL**. You're still in **(State)** correct?

**If aged lead:** *This is (Your Name) — I'm just getting back to you about the IUL request you filled out a little while back.*

**Ask: When you filled this out, were you mainly looking for protection for you and the family or the cash value/accumulation?**

**Ask: Okay? and…why is (protection/Cash Value) important to you?**

**Ask: How long have you actually been wanting to make this happen?**

**Ask: What's been holding you back from actually getting a plan in place?**

**Objection: "What is that?" / "I don't remember filling this out!"**

Most people fill this out for 3 reasons:

> God forbid something happens to them — their family receives a large death benefit.
>
> God forbid they can't work any longer (sickness/injury) — they receive a large lump sum for bills/living expenses.

They want to set themselves up for a tax-free early retirement.

**Ask: Which one was it for you?**

**Ask: Okay? and…why is (protection/Cash Value) important to you?**

**Ask: How long have you actually been wanting to make this happen?**

**Ask: What's been holding you back from actually getting a plan in place?**

## 2. Goals *(be conversational)*

**Ask:** Have you ever had a policy before, or are you familiar with how these work?

> 🔴 *Comment: Most tradesman/truckers I talk to don't know much either — you're busy working hard, so you don't have time to figure it all out. That's why we're on the phone.*

So what we'll do is educate you, make sure everything's affordable, and see what you qualify for — make sense?

---

## 3. Explain The IUL

Its Simple there are only 3 types of life insurance:

| Type | Explanation |
|---|---|
| **Term Life** | Covers you for a set period. Once it's over, you lose everything you paid in. |
| **Whole Life** | Covers you for life and builds cash value you can access while alive. Some truckers go this route because an IUL is harder to get approved for. |
| **IUL** | Permanent coverage like whole life, but with better benefits — higher coverage for a better rate, and cash value grows faster (typically 6–9% compound interest, no risk). You gain money but can't lose any. |

**Ask: Do you know what a 401(k) is? Did you have one? Did you try to take money out? Didn't they penalize and tax you?**

> The IUL lets you borrow your own money anytime — no penalties, no taxes, no losses. (Tax code 7702 — life insurance can't be taxed by the government.)

🔴*Remember 2008? Everyone with a 401(k)/Roth IRA lost 10–30 years of savings in one year. Everyone with an IUL kept everything — it has a floor, so it can't go below 0%.*

---

# 4. WHY FOR Living Benefits

**Ask:** I assume you're the breadwinner of the household, right? …**let client respond**

If you got sick or couldn't work, what would that look like for you and the family? Do you currently have life insurance?

> **Were the same — it'd be terrible for my family if anything happened to me, which is why I put this on myself. If I get put out of work due to**

**sickness or injury, I have access to $250,000 — that's part of my own policy's living benefit.**

**Living benefits explained:** God forbid you get a critical, terminal, or chronic illness, or you're hospitalized/unable to work — you get 80% of the coverage amount up front, while you're living, to cover hospital bills and expenses.

🟡 It's pretty simple. An IUL has two sides: one's like a piggy bank you build and use when you need it; the other is life insurance that protects your family when you die — and protects *you* while you're alive if sickness or injury keeps you from working.

🟡Some tradesman/truckers use this to make sure that whatever they've put into their savings won't be touched.

**Credentials**

**It's required by state law that you receive my credentials so what I'm going to do is send you my digital business card — my face, name, and license number are on there, so you know I'm licensed in the state. Not everyone can get that — I had to pass background checks, get fingerprinted, and pass state exams to do this job for you.**

**Can you give me a firm "yes" that you received my credentials?**

**Ask: Given these 3 policy types, does the IUL fit your goals best? *(🔴 That's what most people say.)***

---

**5. Financial Inventory & Beneficiary**

Who would be the beneficiary if you passed away?

Ballpark monthly income?

Currently saving/investing monthly? (401k, Roth, savings, etc)

(poke holes in what they have, find the gap in their goals and what they have now)

How much? Is that pace going to get you to retirement, or is that why you're looking into this?

🔴 *A lot of truckers don't have retirement set up — not because they didn't work hard, but because you guys weren't taught what the wealthy do. That's why more truckers are catching on, like you.*

**Based on what I'm seeing, this is something you'd definitely benefit from if we get you qualified.**

**Do you feel like this policy is something that will help protect your family as well as help (Clients Goal)???**

Now to structure your policy correctly the carriers recommend you contribute 10% of your monthly income… some of my truckers/tradesmen contribute above 10% and some contribute below 10%...Obviously we want you to comfortably afford it ,last thing you want to do is be too aggressive and spread yourself too thin, but the more you put in, obviously the more you get so it's up to you. Where do you see yourself starting each month???We can always adjust later down the line as well If you want to add more.
**(DOWNSELL IF HESITANT)**

**These accounts are a privilege, — only about 40% of Americans get approved. So let's open an application and see what carriers approve you for.**

**Ask: What really got you thinking about coverage like this — did something happen?**

> 🔴 *A lot of people wait until something happens. Good to see you're being proactive instead of reactive.*

---

**Discounts**

**There are a few discounts you may be able to qualify for.**

**Smoker or nonsmoker?**

Smoker: Do you plan to quit in the next couple years? → *Americo*

Nonsmoker: You qualify for that discount!

**These life insurance carriers are partnered with certain banks where you can get an additional discount. What's the name of the bank you use so I can look it up here?**

**Pre-app questions:** Any felonies or DUIs in the last 10 years? Any prescriptions? How's your health? Rough height and weight?

**HIPAA:** Are you familiar with HIPAA laws? Everything on this call is kept completely secure and confidential, just like a doctor or lawyer relationship — can I get a firm "yes" that I went over this with you?

---

## 7. Start the E-App

***(Open the app, ask questions in order, get the SSN last)***

**Ask for SSN:**The carriers are not going to make you pee in a cup or do a physical. They are going to just look at your DOT physical and MIB report. MIB stands for medical information bureau, just to make sure you're healthy enough for the coverage.

I need a firm yes that you give the carriers permission to use your social to pull your medical records.
Okay, go ahead and confirm the social.

### Beneficiary

Get the full spelling of first and last name AND phone number

---

## 8. Billing

**Anti-money-laundering verification** (required by state):

> Most families start coverage immediately since it's active right away — but you choose the start date. What day works for you?
>
> The carrier is partnered with **(bank name)** — 9 times out of 10 the routing number auto-populates correctly, but I'm required to confirm it with you. Go grab that and I'll finish the app while you do so. *(GOOGLE the Routing number for the bank In their zip code OR city)*
>
> > Is your name spelled the same way on the account, or is there a middle initial?
> >
> > Checking or savings? *(read it back — have them repeat the account # twice, confirm checking/savings)*
> >
> > "Give me one moment while the system verifies that info is linked to your name — for your safety and the safety of others."

**No checkbook Objection.:**

Do you get statements by mail or email?

You've probably got the app on your phone, right?

---

### If IUL is denied → pivot to Whole Life

Quick update — we originally applied for an indexed cash value plan. After reviewing your MIB report (prescription and medical history), the carrier approved you, but with a different structure. Instead of market-based indexing, they're offering a guaranteed 3–5% annual interest rate — predictable, stable growth regardless of the market. It's still permanent coverage, premiums are locked in, and your family's protected for life. We'll move forward with this today so you're covered now, then revisit the indexed option at your 12-month review. In many cases this also comes in at a lower monthly premium. I'll confirm the exact coverage amount based on our budget discussion in just a moment.

---

## Locking Down the Close

Everything's fully submitted (or approved). To recap: coverage applied for was $XXX with (carrier name). Watch for the policy in the mail — typically 10–12 business days. This number you're talking to me on is my direct line — same one my mom calls me on. Anything you need regarding this coverage, I'm just a call or text away.

Important: no one will ever contact you about this coverage except me or the carrier, asking for personal info. You may still get random calls — if someone claims to be my manager or says something's incomplete/due for review, that's just a telemarketer trying to pull a fast one. We don't want anyone messing up your family's coverage.
